REGISTRATION BROCHURE
On behalf of the American Academy of Maxillofacial Prosthetics (AAMP) and the International Society for Maxillofacial Rehabilitation (ISMR), we would like to offer you an opportunity to market your services to our membership and conference delegates. We are dedicated to patient care, education, research and outreach. We hope to partner with corporations who share a common vision of maxillofacial rehabilitation.

Our members are highly active in research in the areas of 3D imaging, scanning and prototyping (virtual planning), robotics, biomaterial sciences (nanotechnology), implant bio surfaces, functional outcomes, and preventive measures to protect against oral morbidities of cancer therapy. Our members are early adapters of new technologies and influence how these new technologies will be used in their academic or private practices. We are a dedicated group of academic, military and private practice professionals who are eager to learn about new products and services such as those you represent.

This meeting describes several opportunities for corporate support at our annual scientific sessions. Partnering with the AAMP and the ISMR allows instant name recognition with our membership base, year-round branding opportunities and close access to your customer base. It is our hope that by working together with industry partners who share our vision, we can provide maxillofacial oncologic rehabilitation with use of cutting-edge technology, advancing the care of this special patient population.

Yours Sincerely,

Program Co-Chairs
Mark S. Chambers, DMD, MS
Betsy K. Davis, DMD, MS
Harry Reintsema, DDS, PhD

Poster Awards
Poster Awards will be presented to outstanding posters approved and displayed at our conference.

Eligibility: There are two categories for awards: (1) Student poster presentations and (2) Non-Student poster presentations. A registered first author of any approved poster presented at the meeting will be eligible for the prize. Approved posters are defined as any “poster title and its first author posted on the conference website”.

Adjudication: Judges will review abstract papers and posters

Presentation: The prizes will be awarded at the AAMP/ISMR conference banquet.

Prize: A cash prize will be awarded to outstanding posters for both students and non-student delegates.

Nomination: All approved posters will be included for judging. Due to the large number of posters submitted, poster abstracts will be reviewed upon submission. Selected abstracts from our poster website page will be considered for poster award nomination, based on the quality of the submitted abstract. All nominated posters will be reviewed at conference site Poster Session for content and display. Additional posters, based on display and content, may be considered for awards.

Attendance: Poster first author must be registered and present during the scheduled Poster Session to answer questions for judges and meeting delegates. Posters will remain displayed throughout the meeting.
